

## NexWave – Shinshu University lecture

Tokyo, Japan – Sep 10<sup>th</sup>, 2007:

Last week, a 3-days lecture about NexWave Component Technology has been given by Kondo-san at Shinshu University Graduate School.

Wasaki-san Assistant Prof. and many students have attended this lecture and were very interested by the component technology (NSI), middleware functionalities (NexGUI, NexBrowser, LibTRON) and associated development tools (NexBuilder, NexGUIBuilder).

Wasaki-san said: "I think, Software Componentization technology for Embedded software development is becoming a mainstream, because of benefits, such as reuse and faster time to market".
